MISSIONS COLLEGE TRACKS

EAST ASIA OVERVIEW: This is a broad-spectrum overview of East Asia led by *IMB's Jeff Waligora*. He will address the following questions: *What is going on in the countries that make up East Asia? Where are the Unreached Unengaged People Groups and Unreached People Groups located? and, How does this affect you and your church?*

CHANGING YOUR WORLD & THE WORLD THROUGH PRAYER: In this workshop, *IMB's Donn Broeker* will help us learn to be more intentional and focused in our prayer life and lead our churches to do the same. We will not only learn about prayer, we will actually spend time praying together. Donn Broeker, being a missionary to Japan, will share specific ways you can pray for the work among the second largest unreached people group in the world.

MASTER PLAN FOR MISSIONS: This class, led by *IMB's Scott Bradford*, will be a hands-on approach to developing a Master Plan for helping your church effectively engage a people group or population segment. Please come prepared to talk and interact and discuss practical issues related toward developing an effective Master Plan. (1.5-hour session, taught twice)

EFFECTIVELY ENGAGING UNREACHED PEOPLE GROUPS/ CITIES & EVALUATING YOUR PROCESS: This workshop, led by *IMB's Tony Lee*, will help you develop effective strategies in engaging Unreached People Groups/Unreached Cities and evaluating your current ministry engagement plans for adoption, entry, partnership and exit.

GOSPEL CONVERSATIONS—STORY OF REDEMPTION: *IMB's Jason Queen* will help you look at how to have (and train others to have) natural Gospel conversations with non-Christians. We will look at a simple and easily learnable way to share the Gospel with non-Christians. With the *Story of Redemption*, we will look at how to lead non-Christians in an evangelistic 8-lesson Bible study. The *Story of Redemption* is also a great discipleship tool for new Christians.

COMPASS: The goal of the Compass Church Planting Training Session Series focuses on God's word and uses an 8-phase framework for helping to diagnose potential pitfalls in our own church progress, church planting work, and cross-cultural missions efforts. The Compass training and tool is designed to assist Church Planter workers in diagnosing the current phase of a church, mission, and ministry. *Please note THIS YEAR we will not be teaching this in 3 parts. It will be a 1.5-hour session taught twice with hands on activities. Taught by: *Steve Ellis*

INVOLVING STUDENTS IN MISSIONS: This workshop, led by *IMB's Gerald Lee*, will help you learn effective ways to utilize students in your mission strategies and discuss creative ways to do so.
